Fascinating Flexibility

Change the shape of the lamp and adapt the appearance to your personal preferences. Giving you the possibility to adjust to changing light conditions.

Adjustable Luminaire

Lighting to your Wishes. Pirouet is an object you'll love to play with. Change the shape of the lamp and adapt the appearance to your individual liking. Fill your room with a cosy atmosphere and comfortable ambience. Open the lamp for more light and intense illumination.

Technical Specifications

Optimal Handling with 25cm in Diameter

Pleasant Lighting - Color Temperature in 3000 or 4000 Kelvin

Energy Efficient - Samsung MID-Power LED-Modul

Awarded Design

With its around 5000 submissions from 2000 participants, Red Dot Award is the most established and international design competition in the world today. It's a great honor to be one of the 2015 winners of Red Dot Design Award: Product Design with our luminaire design pirouet.

Design Experience

The beauty of apertures is mostly hidden by their technical use. Designing pirouet we made it a real visual experience. Moving amazingly synchron the parts interact perfectly smooth. The lamp allows infinitely variable settings. It's an unique choreography of light and shadow.

Made in Germany

For the best performance Pirouet is made out of long lasting materials. As illuminant it comes with an energie efficient LED modul. Pirouet is designed by KDID and manufactured by the German lighting producer RiDi Leuchten in Berlin.
